

# Andrew Williams

## Entry-Level Programmer

a.williams@email.com

(123) 456-7890

Seattle, WA

[LinkedIn](#)

*As a University of Washington graduate and current Amazon intern, I live and breathe software. I have received 5 best-in-class awards for design and mobile-first development. As a front-end developer intern at Amazon, I have implemented real-world industry best practices and turned client/customer concepts into workable models.*

## WORK EXPERIENCE

---

### Ozone AI - Front-End Developer Intern

June 2021 - current

Bellevue, WA

- Performed independent research to *identify 30+ project designs and proposed solutions* to possible roadblocks
- Developed 12+ solutions that work with financial software ecosystems for both internal and external products
- Collaborated with 12 senior team members to learn techniques for writing practical code
- *Developed 500+ test plans* to ensure security, accuracy, and reliability of codebases

## PROJECTS

---

### Fridge to Plate Solutions - Creator

- Created responsive, accessible, and mobile-first web application that *generates recipes based on user-inputted ingredients and desired caloric breakdown*
- Utilized government health API (ratemyplate.gov) to provide and suggest caloric breakdown based on body type and goals
- Utilized RecipeFinder API to provide recipes based on user-input ingredient list
- Used JWT to allow users to create and save personal profiles
